

Hyalogy C20 essence

Restructuring and Illuminating 20% Vitamin C Serum

Features:

A rich serum formulated using biotechnology which combines several forms of highly stable Vitamin C in a 20% concentration. This serum was specifically designed to brighten overall skin tone, encourage neocollagenesis, and strengthen the structure of the skin while increasing its turgor and elasticity.

The Pacific Mozuku algae extract in the serum has a powerful immunomodulatory effect which works to strengthen and increase the elasticity of blood vessels and capillaries of the skin.

The complex of plant extracts and hyaluronic acid prevents irritation of the skin, promotes moisture retention. This well-rounded formula is suitable for all skin types and conditions, including hypersensitive skin. Visible results with regular use include a brighter more luminous complexion with a reduction in appearance of dark spots. Additional results include improved skin density, elasticity, and improved texture. The appearance of fine lines and wrinkles is visibly reduced.

Benefits:

- Reduces oxidative stress of the skin by improving the skin's defence mechanisms to fight free radicals;
- Improves the microcirculation of the skin by improving tissue respiration, optimizing biosynthesis;
- Strengthens skins' immunity and reduces inflammation;
- Reduces the visible appearance of enlarged pores.

Indications:

- Uneven skin tone, pigmentation concerns;
- Loss of the skin elasticity and volume, sluggish skin;
- Addresses various depths of wrinkles;
- Ideal for urban dwellers exposed to toxins and pollutants resulting in dull, devitalized skin.

Contraindications:

hypersensitivity to ingredients

pH value:

3.0-5.0

Recommended age:

25+

Home Care, 30 ml

APPLICATION METHOD:

- Every day, in the evening, after cleansing and applying lotion (2 hours before bedtime);
- Apply 5 drops of the serum onto the face (avoid the area around the eyes), neck and décolleté;
- Absorb with light patting movements;
- Apply a cream according to the skin type.

IMPORTANT!

Be sure to use sunscreen.

KEY INGREDIENTS:

Inhibition of melanogenesis, stimulates neocollagenesis, antioxidant protection:

- BIS-glyceryl ascorbate
- 3-O-ethyl ascorbic acid
- 3-Lauryl glyceryl ascorbate
- Ascorbyl glucoside

Immunomodulation.
Reduction of wrinkle depth:

- Cladosiphon novae-caledoniae polysaccharide (Mozuku algae)

Stimulation of protein synthesis; strengthening the skins' architectural network:

- Oryza sativa (rice) germ oil

Improvement of the skins' moisture binding capacity, biostimulating effect:

- Hydrolyzed hyaluronic acid

Powerful antioxidative effect, increases ATP energy:

- Thiocetic acid

De-puffing action, hydrolipid mantle protection:

- Caffeine

Healing properties, soothing irritated skin:

- Allantoin
