

Hyalogy

Neck & Decollete cream

home 50 g

Recommended age: 30+

Cream that reinforces skin's natural defenses, shields the protective barrier and actively stimulates collagen and elastin production. By maintaining optimal moisture levels, it helps to minimize the appearance of fine lines and wrinkles.

FEATURES:

Specifically formulated with mushroom-based ingredients and neuropeptides addresses both the surface and structural aspects of the skin, enhancing collagen synthesis and significantly improving skin texture and complexion. Tremella fuciformis (Snow Mushroom) delivers intense hydration and a plumping effect, while Inonotus obliquus (Chaga) supports skin resilience and radiance. Acting as a protective finishing layer, it locks in serum benefits for long-lasting care.

BENEFITS:

- softens the effect of psychological stress on the skin aging
- reduces wrinkles, improves skin elasticity & firmness
- protects against UV and blue light exposure
- brightens skin tone and reduces hyperpigmentation and dark spots
- strengthens skin's natural defenses by restoring the lipid barrier
- deeply hydrates and forms moisture-locking shield on the skin

INDICATIONS:

- loss of firmness, elasticity, and contour definition in the neck and decolletage
- presence of fine lines, wrinkles, crepey skin texture
- dull, uneven skin tone and the appearance of hyperpigmentation or age spots

Contraindications: individual intolerance or hypersensitivity to any of the product components. Damaged or compromised skin barrier (e.g., sunburn, abrasions, active eczema) at the application site.

APPLICATION METHOD:

- Apply the cream over the serum, gently massaging until fully absorbed. Using them together provides a synergistic effect. Use twice daily, morning and evening, as part of your regular skincare routine. For best results, complete your routine with a broad-spectrum sunscreen during the day.

KEY INGREDIENTS:

Unique component:	• Tremella fuciformis (Snow Mushroom) • Inonotus obliquus (Chaga) • Cysteine / Oligomeric Proanthocyanidin, • Sodium Polygamma-Glutamate	• Tripeptide-10 Citrulline (Decorinyl®)
		Neuropeptides and muscle relaxation: • Acetyl Hexapeptide-8 (Argireline®) • Pentapeptide-18 (Leuphasyl®)
Barrier function and lipids:	• Squalane • Ceramide NP • Phytosteryl Macadamiate • Lecithin	Anti-inflammatory: • Phellinus linteus (Sanghuang) • Glycyrrhiza Glabra Root Extract • Vaccinium Myrtillus Leaf Extract
Collagen stimulation:	• Ganoderma lucidum (Reishi) • Palmitoyl Pentapeptide-4 (Matrixyl™)	Oils: • ZeaZea Mays (Corn) Oil • Brassica Napus Seed Oil
